Instructions to the bidders for online bid submission

The bidders are required to submit their bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal to prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal. More information for submitting online bids on the CPP Portal may be obtained at <https://eprocure.gov.in>.

1. Registration:

- (a) Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL: <https://eprocure.gov.in>) by clicking on the link "Online bidder Enrollment" on the CPP Portal which is free of charge.
- (b) As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.
- (c) Bidders are advised to register their valid email addresses and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- (d) Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India, with their profile.
- (e) Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible for ensuring that they do not lend their DSC's to others which may lead to misuse.
- (f) Bidder then logs in to the site through the secured log-in by entering their user ID/ Password and the password of the DSC / e-Token.

2. Searching for tender documents:

- (a) There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.
- (b) Once the bidders have selected the tenders they are interested in, they may download the required documents/tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS/E-mail in case there is any corrigendum issued to the tender document.
- (c) The bidder should make a note of the unique Tender ID assigned to each tender; in case they want to obtain any clarification/help from the Helpdesk.

3. Assistance to bidders:

- (a) Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk.
- (b) Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.

8. MII & Purchase Preference:

The MII compliances shall be as per Govt. of India guidelines. Only Class-I local suppliers and Class-II local suppliers are eligible to participate in the tender. As per the Ministry of Commerce and Industry Order No. P-45021/2/2017-PP(BE-II) dated 04.06.2020 preference shall be given to Make in India products for which bidders must declare Country of Origin of goods and

percentage of Local contents in the product. The purchase preference shall be as per Govt. of India guidelines. All the bidders must upload undertaking as per Annexure-C with the Technical Bid. All the bidders must upload undertaking as per **Annexure-C** with the Technical Bid.

9. Evaluation Procedure:

Phase-I: Technical Evaluation

Technical evaluation will be done based on documents submitted by the bidder in the technical bid. Hence bidders are required to enclose all relevant documents along with the technical bid. Discrepancy in relevant supporting documents shall lead to the rejection of technical bids.

Phase-II: Financial Evaluation

- a. Financial bids of the technically qualified bidders shall only be opened.
- b. The bid will be awarded to the L-1 bidder.

10. Delivery, Installation and Commissioning:

For Foreign Consignment: The delivery, installation and commissioning of the item(s) must be made within 24 weeks from the issue of Letter of Credit (LC).

For Indigenous Consignment: The delivery, installation and commissioning of the item(s) must be within 24 weeks from the issue of the Purchase Order.

Any requirement for installation (if applicable) should be communicated at least one month before installation to make suitable arrangements.

11. Prices:

For Foreign Bids: The base price should be quoted on FOB/FCA basis. Other applicable charges/taxes such as Freight, Insurance and Forwarding charges etc. shall be quoted separately. The exchange rate should be considered on the rate of opening of the tender.

For Indigenous Bids: The price should be quoted on FOR IIT (ISM) Dhanbad basis including all applicable taxes, Charges etc.

12. Liquidated damages (LD):

If a bidder fails to deliver/install/commission the item or any part thereof within the period prescribed for delivery, installation and commissioning, the Institute shall be entitled to recover as liquidated damages a sum equivalent to 1% (one percent) per week of the purchase order. The total damages shall not exceed 5% (five percent) of the value of the purchase order.

For Foreign Order: Delivery, Installation and commissioning period will be counted from the date of issue of Letter of Credit (LC).

For Indigenous Order: Delivery, Installation and commissioning period will be counted from the date of issue of Purchase Order.

13. Inspection:

Institute authority will inspect the supplied item after delivery/installation/commissioning, whichever is applicable. In case item is not supplied/installed (as the case may be) as per specifications of the purchase order or item is not working satisfactorily, then the same will be rejected.

14. Training:

The tenderer will have to provide training to the designated staff of the Institute after successful delivery/installation/commissioning. The training should include operation, maintenance, troubleshooting, safety, and routine care of the item.

15. Payment Terms:

For Foreign Payment: The payment will be released through Irrevocable Letter of Credit (LC). Irrevocable Letter of Credit (LC) will be established for 90% of the Purchase Order (PO) value on submission of order acceptance letter, proforma invoice with the details of terms & conditions to open LC with the entire Bank details and integrity pact. The 90% of the invoice amount will be paid on presentation of original shipping documents and other applicable documents to our bankers and the balance 10% will be paid after successful installation, commissioning, demonstration of the whole system, imparting training (if applicable) and on receipt of performance security @ 5% of total order value valid for **14 months** from the date of installation.

For Indigenous Payment: 100% payment shall be made by NEFT/RTGS against submission of bills in triplicate, only after satisfying following conditions:

- b. Inspection and testing of the items by the Institute authority.
- c. Training provided by the supplier.
- d. Supply of all manuals, Installation Certificate and calibration Certificate.
- e. Submission of Performance security.
- f. Submission of duly signed & stamped guarantee / warranty declaration certificate.
- g. Payment shall not be made for part supply/work.

16. Extension of Delivery/Installation/Commissioning Period:

If the supplier is unable to deliver/install and satisfactorily commission the order within the stipulated time, for which the supplier is responsible, he is required to request in writing for the extension of the delivery/Installation/Commissioning period before the stipulated date of delivery/Installation/Commissioning. It may be extended at the discretion of competent authority with/without imposing liquidated damages. In case the supplier has failed to complete the order within the stipulated time, the Institute reserves the right to cancel the purchase order and to forfeit performance security and/or EMD.

17. Warranty:

- a. **Minimum Warranty** is to be provided for **Three years**. If the warranty mentioned in the catalogue is less than the specified time, in that case, the supplier must provide for the remaining period. In case the product comes with more than the stipulated guarantee/warranty period, it will be provided by the supplier free of cost.

- b. Guarantee / Warranty will commence from the date of the satisfactory installation/commissioning of equipment against the defect of any manufacturing and poor quality of components.
- c. A signed & stamped guarantee/warranty declaration certificate will have to be furnished by the successful tenderer at the time of supply along with the bills.
- d. In case the supplier has failed to repair/rectify the equipment during the guarantee/warranty period in a reasonable time not exceeding 3 weeks, the Institute may employ or pay other parties for such repairs of the equipment and all such damages, loss and expenses shall be recoverable from the performance security submitted by the supplier.

18. Performance Security:

- a. To ensure due performance of the item, performance security is to be furnished by the successful tenderer.
- b. The performance security should be furnished within 21 days of the award of supply order.
- c. Performance security should be for an amount of five percent (5%) of the total value of the supply order.
- d. Performance security may be furnished in the form of a Demand Draft/ Fixed Deposit Receipt / Bank Guarantee from a commercial bank in favour of Registrar IIT (ISM) Dhanbad, payable at Dhanbad.
- e. Performance security should remain valid for a period of 38 months from the date of installation. The performance security will be refunded without any interest, provided that the performance is satisfactory.

19. Refund of EMD

- a. EMD will be refunded without any interest to the successful tenderer on receipt of performance security.
- b. The tenderer, who are not qualified for the tender either in technical bid or on any other grounds, their EMD will be refunded within 30 days from the award of the contract.
- c. If supply order is placed and the successful tenderer fails or refuses to supply the item, in such case the EMD will be forfeited.

20. Cancellation of tender: IIT (ISM) Dhanbad reserves the right to cancel the tender at any point of time without assigning any reason.

21. Legal: Any dispute regarding the meaning, effect or interpretation of any clause of this contract/agreement shall be referred to the sole Arbitrator i.e. Director, IIT (ISM) Dhanbad who would act as the sole Arbitrator and proceedings of such arbitration shall be conducted in accordance with the provisions of the Indian Arbitration Act, 1940 or any statutory modification thereof. The venue of Arbitration shall be IIT (ISM) Dhanbad only and the language shall be English only. In case of litigation, if any, the District Court of Dhanbad (Jharkhand) shall have the jurisdiction for any such litigation.

Technical Specifications of Geldoc Gel Imaging System

39534/2024/CY

6/9

Specifications for the Geldoc Gel Imaging System

1. The Imaging System should be stand-alone, ready to use with all essential hardware, accessories, darkroom, CCD camera, and advance software for image acquisition and analysis.
2. The Imaging System should be capable of doing applications like stain free Imaging, Chemiluminescence, Colorimetry, Fluorescence (R, G, B, NIR, IR), Densitometry, Nucleic acid Documentation.
3. The Imaging System should have in-built 16-bit CCD camera with pixel density of 65,536 gray levels having individual pixel size of at least 3.6 x 3.6 μm or better.
4. The camera resolution in the Imaging System should be 8 megapixels or higher and have a Peltier based cooling.
5. The Imaging System should allow users to position their samples using appropriate tray and automated image capture driven by a selected gel or blot application.
6. The Imaging System should provide excellent quantitative data from a single blot having very intense and weak signals in a single image; to facilitate the same, the Imaging System's dynamic range should be at least 4 orders of magnitude for all applications.
7. The Imaging System should provide highest level for sensitivity and hence must have minimal dark current with maximum limit of 0.006 e/p/s and low read noise of not more than 6e-.
8. Quantum efficiency of the camera should be 70% or more, this will ensure that the Imaging System is highly sensitive to very faint signals from chemiluminescent blots.
9. The Imaging System should have motorized zoom fast lens with f/0.95 or better.
10. Light sources/excitation should include-Trans (UV/Green), Epi White, trans-white (via White sample tray), Epi-blue (460-480 nm excitation), Epi-green (520-545 nm excitation), Epi-red (610-630 excitation), Epi-far red (610-660 nm excitation), Epi-near IR (745-765 nm excitation) for multiplex fluorescence imaging in RGB, Far Red and near IR.
11. Imaging area for white light, chemiluminescence and fluorescent blot imaging application should be 20.5 cm x 18 cm or more.
12. The Imaging System should provide image acquisition with automatic zoom, focus, and iris adjustment without the need for users to focus or adjust aperture settings.
13. The Imaging System should have onboard attached touch screen of 12" or bigger with multi-touch capability enabling users to easily interact with the touch screen to acquire, assess and export images. Touch screen actions should include- tap, double tap, pan, scroll to zoom.
14. The Imaging System should have multiple input/output ports with minimum 2-3 USB ports allowing users to connect USB devices (like keyboard, mouse, data storage and printer). One USB port should be provided on the front for easy export to USB. Also, system should have one Ethernet port so users can transfer image files via Ethernet to networked computers.

39534/2024/CY

15. The Imaging System should have factory calibrated flat fielding for ensuring uniform data for all applications.
16. The Imaging System should have a fixed sample stage.
17. The Imaging System should provide flexibility in selecting the pixel binning options, should be possible to select minimally 1x1, 2x2, 3x3, 4x4, 5x5, 6x6 and 8x8 binning.
18. The Imaging System should be provided with analysis software with unlimited user license as well should have on board analysis software
19. The software should have highest level of automation in image optimization, capture, and analysis.
20. The Imaging System should have automated workflow recorded in a protocol file from image capture to results thus eliminating need for training.
21. The software should have automated normalization feature for normalizing western blot signals of target band with a housekeeping protein band and total protein normalization.
22. The software should be both PC and Mac compatible and freely upgradeable to future versions.
23. The software should generate the publication ready images (dpi, dimension, and format) with one click export option and in different formats such as tiff, png and jpg or more formats
24. The analysis software should not only generate customizable reports but also have feature for automatic print when only imaging and printing is required.
25. The software should have easy copy/paste functionally, crop, zoom, and colors.
26. The software should perform analysis functions such as lane and band detection, background subtraction, incorporation of nucleic acid/protein standards from vendor as well as external vendors and absolute and relative band intensity determination.
27. The analysis software should be capable of up gradation to 21 CFR compliant version to provide a secure environment for protocol, data acquisition and analysis.
28. At least five prior installation report of the exact same model of the Imaging System in different universities/ institutes/ companies in India is required (should be provided with proper documentation from corresponding authority). The manufacturer should have at least 30-40 installations of imaging systems in the country (user list to be provided).
29. All the above-mentioned point should be mentioned in the manufacture web published manual/ catalogue and/ or need to provide demo of the equipment within time for technically qualify.
30. After-sales-services should be provided by the principal company.
31. The Imaging System should be supplied with at least 3 years of standard warranty.
32. One Northern Blot analysis kit (with all the required reagents) should be provided with the Imaging System sufficient for blotting of 800 cm² membrane or more.
33. One nucleic acid chemiluminescence detection kit (with all the required reagents) should be provided with the Imaging System sufficient for blotting of 800 cm² membrane or more.
